Profile

Data Scientist graduated from the **ISIDS Professional Master's – Data Science**, with a dual expertise in **Business Intelligence** and **software development**. Experience designing data pipelines and **AI** solutions (**NLP**, **computer vision**) as well as **BI** (**ETL**, decision-making dashboards), from raw data to production deployment. Seeking a **Data Scientist / ML Engineer** position, open to environments combining **AI** and **Business Intelligence**.

Experience

Graduation Internship – Data Scientist — Excellia Solution, Tunis Feb – Jun 2026 (5 months)

Project: LC Validator — AI platform for documentary letter of credit validation (SWIFT MT700)

- Microservices architecture: Angular, Spring Boot 3/Java 17, Flask/Python, PostgreSQL, Docker.
- Multimodal AI pipeline for extraction and classification of commercial documents (NER, Vision, NLP) and UCP 600 compliance validation.
- Explainable risk scoring (calibrated XGBoost, Isolation Forest) interpreted via SHAP / LIME.

Graduation Internship – BI – VERMEG, Tunis

Feb – Jun 2024

Project: Implementation of a BI Solution for Optimized Resource Management in Jira Software “Atlassian”

- Data modeling and SQL queries to structure tracking indicators.
- Automation of ETL pipelines (Talend), 40% reduction in reporting time.
- Design of Power BI dashboards for KPI tracking and resource allocation.

Academic Projects

Smart Job Matcher (2025) — NLP (BERT) + semantic similarity for CV/job matching

RFM Clustering (2024) — Segmentation of 10k customers via KMeans for behavioral analysis

Big Data Water Analytics (2024) — PySpark + Kafka pipeline for real-time data processing

Education

ISIDS Professional Master's – Data Science | FSEGT, University of Tunis El Manar — 2024–2026

Bachelor's in Business Computing (BI) | FSEGT, University of Tunis El Manar — 2021–2024

Skills

Data Science: Python, Scikit-learn, TensorFlow, BERT, LayoutLMv3, ResNet-18, XGBoost, SHAP/LIME, PySpark, Kafka

Dev & Deployment: React, Express.js, Angular, Spring Boot, Flask, Java, Docker, Git

Data & BI: SQL, PostgreSQL, Power BI, Talend, ETL, Data Modeling

Soft Skills

Analytical mindset • Problem solving • Teamwork • Autonomy • Initiative • Leadership

Languages

Arabic (native) — French (B2) — English (B2)

Community Involvement

Head of the Public Interest Committee — Tuni'act Club (Les Berges du Lac)

2024 – 2025

- Led public interest initiatives and coordinated social impact projects (clean-ups, solidarity days, winter aid drives).

Active Member — Public Interest & Finance Committees, Tuni'act Club

2023 – 2024

- Took part in local and national community actions and contributed to project financial management.
